

Fast-track Investment Loans with EU grants for SMEs

EU EBRD Romania SME Sustainable Energy Finance Facility (RoSEFF)

Credits and EU grants for complex investments of any size – fast

- RoSEFF investment credit of up to 1 million EUR
- EU grant of up to 150 000 EUR
- EU-financed technical consultancy from Tractebel Engineering to help define your investment
- Timing – depends on complexity, but typically a few weeks from idea to investment

Credits and EU grants for small and simple investments – even faster

- Select items you would like to buy from a List of Eligible Measures and Equipment (LEME)
- Apply online for financing
- Timing – generate a Certificate of Technical Eligibility (AVIZ LEME) online – in 10 minutes!

Typical RoSEFF investments

Energy efficiency

Replacing motors, controls, lighting, machines, industrial production lines and their components, building insulation, termopan windows, heat pumps, boilers, burners, furnaces, ovens, kilns, cogeneration systems... and much more.

Renewable energy

Biomass, biogas and biofuel-fired boilers and cogeneration systems; solar hot water systems; small hydroelectric.

Main eligibility rules

Complex investments

- Energy efficiency investments must bring defined minimum energy savings of 20%
- Thermal rehabilitation of buildings must bring defined minimum energy savings of 30%
- Renewable energy investments must generate at least 3kWh/year per EUR invested
- The IRR must be higher than 10% per year
- EU grant is 15% for better-performing investments; 10% for other investments

Small and simple investments

- Equipment on the List of Eligible Measures and Equipment (LEME) are automatically eligible
- One measure attracts a 10% EU grant; two or more measures attract a 15% EU grant

Eligible borrowers

- Designed for investments by private sector SMEs (<250 staff; <50 MEUR turnover)
- Housing associations may also use RoSEFF
- Business expansion loans for SMEs in the sustainable energy industry (no EU grant)

Step-by-step application procedures

Find out if your complex investment proposal is eligible

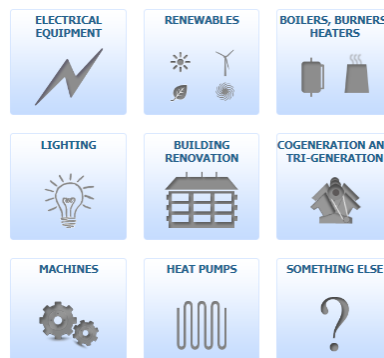

- Call **RoSEFF Help Desk - 031 224 8104** or send an e-mail to seff@seff.ro
- Discuss your technical needs with a specialist engineer
- If your idea appears to be eligible, you will receive tailored 'next steps'

Find out if your small and simple investment proposal is eligible

- See if the equipment you would like to buy is listed on the LEME.

List of Eligible Measures and Equipment (LEME)

LIST OF ELIGIBLE MEASURES AND EQUIPMENT (LEME)

www.seff.ro

- Choose from a wide range of equipment: electric motors, variable speed drives, electric appliances, lighting systems, compressors, tractors, solar hot water systems, biomass boilers, biogas systems, polystyrene insulation, sandwich panels, energy-efficient glazing, heat pumps, boilers, burners, infra-red heaters, cogeneration systems... and more.
- Generate a Certificate of Technical Eligibility (AVIZ LEME) online - which describes:
 - The equipment that you selected;
 - Eligible costs – which include labour/installation costs for some types of equipment;
 - Next steps to apply for your RoSEFF credit and EU grant.
- Submit your application to the bank online – or take your AVIZ LEME to your local branch.

Questions?
